THE APPORTIONMENT AGAIN.

The plan of the locufoco leaders is, to cry afoud and space not, shout the apportionment, and to induce the loud talking and leatherned lunged understrappers at the corners of the street, to shout, WICKED, ABOMINABLE, OUTRAGEOUS; and other adjectives of a like nature, without coming to any point, or enter ing into any argument or specification. This may answer to excite the projudices and passions of a lew who will not eximine and compare, but must fail to influence any sober minded, and honest man. Let the matter be examined carefully and candidly and with strict comparison with the apportionment of 1831 and allwill be able to see which apportionment comes pentest to the spirit and intentions of the constitution. We propose, to day, to examine another point on which their denunciations are based, and to give facts and figures.

The great cry to which we alfude is, that separate representation is given to certain towns for specified years, and that it is given to certain towns that did not ask for it. This is true, but it to precisely the same course in this respect, as thet-taken in 1831, and is in strict comformity with the constitution. By that instrument the Legislature is empowered at every apportionment, whenever any town or plantation not entitled to elect a representative shall determine against a classification with any other town of plantation; to authorize such towns, on application therefor, to elect a representative for such partion of time and such pariod cas shall be equal to its portion of representation. Here is nower given, which it was clearly intended should be exercised in favor of such towns as tright prefer separate representation. How is this to be done? The constitution provides that the representatives shall first be apportioned among the equation, i. c. the number to which-each countr is entitled to & nd annually is fixed and detransped. Thus York to guittled to fremly one, Cumberland to twenty seven, Penobscot to nine. teen every year. A town applies for separate representation in one of these counties. It is, then, the duty of the Legislature to grant the request if possible. Upon examination it is found that the town is entitled to a representation one half the time, or hie years out of the ten. Of course it is necessary, sy, unavoidable, that some other town should be classed with it. Else one year there would be twenty one representatives, say, in York county, when this town sends, and the next year but twenty. Let us take the cases as presented in York county this year. Acton was the only town in that county that asked for separate representation. The prayer of the people being granted, the town was entitled to five years representation and of course it was absolutely necessary that to some other fown the other five years should be assign ed, or else the number of twenty one represen tatives to which the county is not entitled would holbs preserved. In other words the right to separate representation, unavoidably creates the right to assign it to the shole district. It is inpossible to do otherwise, as any-mas-of common sense, can see at once: If it is assigned to one town, it must be to another, and the right to assign to the other parts of the distrit is as clear as the right to assign to the town asking for it.

South has always been the construction of this clease of the Constitution. It was the course teken in 1831, se we will now proceed to allow. Separate representation, was in that apportion. ment, satigned to sixteen towns. Of these towns, seven made no. application or request for separate representation, and six of the towns in their corporate capacity, requested it, and in the other three there was an informal regrest from so g af the inhabitants, but no vote of the town. Some of these towns, is is well known, were angh. oppond to such representation. - Phips burg, Wayne, - Woolwich; -Windsor, Concord, Blociusvid, and fe nision, made no request, aither by town action emby request of individcale. Abl yet hay sele classed Lift weber l'awisibm und Anton aftempret to geft representaties in one of the verifict allowed them; but their now valiant and attenuing nultifying become acquainted with them on that account, and Portland 8 } --

> But another hue and cry is raised because, as the said, the Legislature has assigned to Whig towns in the most important years. The idea is that when an office is to be filled, that is, in the view or these patrioter the great year, and the writer of "The Doings" takes great pains to prove that one year is of much more comequence than another, but by a singular and sail cidal-admission, he cuts up his own argument, except as to one year, root and brench. He admits that "the next Legislature must make a new apportionment." Every one knows that the apportionment of this year must be of temporary duration. Those who made it knew so All agree in this. Of what consequence then is it, how the years are assigned? It was ne cessary to assign them, in the law, but no one expects the apportionment to remain. Of course the assignment of the luture years was of no consequence.

But let us see how these dear lovers of impartial justice .- these men who never could think of considering the political bearing of assignments at all -- who would leave all this to chance and who shrink with pious horror from any perty projects. Let us see how they managed this matter in 1831. Did they think at all of the important years, as they are called. Most of the the towns to which separate representation was then given-were whig-towns, classed together in this way, because they were too strong to be annexed to other towns in their-neighborhood, and in this way distant lowns-might be classed. But enough appears to disclose the cloven foot The years in which U.S. Senators are to be chosen were 1833-35-39 and 41. Take for instance Woolwich, strong Whig, and Georgetown, alrong loco, which were classed together, and which, by the way, adjoin, and would make a consenient district, but were separated without the request of Woolwich. To Georgetown is given the years 1833-35-37-39-41 : Was this accidental? Phipsburg and Richmond were annexation of New Mexico may now be looked classed, and allowed separate representation. sburg strong Whig, and Richmond for ma By years loco, (thanks to the spirit and intelligence of her people, for she is no longer so. Richmond had 1833-35-37-39-41! Windsor, ...Wlsig, Albion, loso, were thus classed : Albion had 1233-35-37-39-41 1- Bloomfield, strong-Whig, and industry, about balanced, generally I sco, were thus clossed - Industry had 1893 : 35 '37-'39-'41.! In all cares these years were given to doubtful, or strong foch towns Did these men then discover any wickedness in such apportionment? Oh no i...lt was then all right and fair. But now it is your buil that goods my ox; and that alters the case confoundedly. And for this, these pure and emaculate patrious are compant with indignation, and talk in their peculiarly mild manner about mullifying the law ! | Shame, where is thy blush !

Trilic Journal of Commerce has received intelligence of a naval engagement which took place on the 24th of May, between the Monte Video Squadron, under Commodore Coe, and that of Baenos Ayers, under Adiffra Brown. The former consisted of six vessels, and the latter of three. Brown however had the best artillery and his vessels were larger, and manned chiefly with seamen, while (Loe's were chieffe manned with landsmen. Coe gallantly wustained his adversary's fire for three hours. He then found it ea .. dient-to-rother and arrived at Monte Video without the loss of any of his vessels, which, the American Minister. however, suffered much damage. He had 12 nien killed, and 20 wounded, including Lieut. Shannon: Brown had only sig or eight men wounded, and his vestele auffered very little daniage. They were on the 27th at anchor of Monte Video. Coe was fepairing his vessels with all epeed, and then intended to try his luck again. One of Coe's schooners; on the 26th, deserted to the enemy. ---

k Fimportant Cantion. Fit It is a singular fact and one much to he regretted that valuable medicines, as soon as they become popular, and have received the test and approval of a discriminating public, are sure to be counterfeited. and thus a bad and spurious article is immediately palmed upon the unsuspecting as the genuine. This has been notoriously the case with all popular tried and truly valuable medicines for years past, and will probably continue to be the case for years to

ble substances which have been found to modify and diffuse its effects, are believed to be the best Alterative and Cathartic Medicine over disco-They have been abundantly and successfully tried, and have received universal approbation for Seroiula. Dyspepsia, Jappdice, Bilhous Diseases. Gravel, Rheumatism, Cougha, Colde, Inflaquea, Catarrh, Nervous Discuses, Acid Stomachs, Glandalar Swellings, of all sinds, Costiveness, Cholic, Head-

ache, &c.

They are an antidute to Contagious and Epidemic diseases; prevent the formation of Billious and Liver affections Fever and Ague, &c., in those DOVER WOOLEN FACTORY who reside in hot climates, and low and marshy countries, and are the best Cathartic that can be used for those localnica. Seamen will find them as infallible remedy for the Scurvy; and Travellers, the best medicine they can use to Counteract the dangers of exposure in unhealthy climates. For ordinary. Family Physic, they are universally approved, as the best ever offered.

These Pills have a powerful and salutary operation upon the Glandular System, removing all ob-structions from the Gland, wherever situated, Senosities and Scrofulous Taints in all their forms, and if persevered in, no case of Scrofula, however se vere, can resistits influence. It is in their operation on the Glandular System, that their effects are so peculiar and potent, and so nearly resemble that of Calomet .- In fact, the Tomatine has all the Al terative Deobsirgent and Cathartic properties -of Calamel, without ever producing unpleasant or injurious effects under any circumstances, euber from exposure to cold or wet; on the contrary, the Compound Tomato Pills are the hest remedy ever known to counteract the effects of Mercury, completely eradicating every particle of it from the system, and renovering the constitution broken down by its use; which it does by correcting the state of the blood. and through that, correcting the mothed secretions has been used successfully for eight years in of the glatids, and restoring them to a healthy and their own proper action list ffeets are analogoued-action in the ingredients composing the Pills, 11
